

Little Egg Harbor Township School District

Internet Safety & Acceptable Use Policy

Please read the following carefully before signing the attached agreement

The Little Egg Harbor Township School District is pleased to be able to offer Internet access to your child at his/her school. The Internet is a vast, global network, linking computers at universities, schools, science centers and other sites. The Internet can give students and teachers access to a variety of rich, educational resources. These resources may include libraries, databases, museums, government institutions and educational sources specifically designed for children. In addition students will have opportunities to participate in online telecommunications projects directly related to their classroom studies. Our goal in providing this service to teachers and students is to promote educational excellence.

Students will be able to access the Internet at a number of locations including the computer lab, media centers, and individual classrooms. To access the Internet students will be using a browser (a software program) to navigate through information by pointing and clicking the mouse. Information is presented richly in text, pictures, sound, and some video. Students will be able to send electronic mail but will not have their own Internet e-mail address unless specifically approved by their teacher as part of educational activity/project. Student use of email will occur under the direct supervision of a teacher or administrator.

The educational value of information on the Internet is substantial. However, with access to world wide computer systems comes the availability of material that may be considered objectionable and not educationally valuable. There exists information that may be judged as inaccurate, abusive, profane, sexually oriented, pornographic or illegal. The Little Egg Harbor Township School District does not condone or permit access to or the use of this material. The district will provide student access to Internet resources only in supervised environments and has taken steps to filter out objectionable material. Nonetheless, the school cannot completely prevent the possibility that some users may access material that is not consistent with the educational goals of the district. However, the district believes that the resources and interaction available on the Internet far outweigh the possibility that users may procure material that is not consistent with our educational goals.

STUDENT RESPONSIBILITIES

Students are expected to use Internet resources in a manner consistent with this contract and will be held responsible for their use. Students are responsible for good behavior on school computers and networks just as they are in a classroom or other school areas. Use of the Internet is a **privilege**, not a right, any inappropriate use will result in a cancellation of those privileges.
